Golf putter with a sexy surprise

This Putt-Her works like the old tip n' strip pens. When you pull the putter from your golf bag it appears to be a normal looking black putter. Then when you turn it over to putt, an 8" picture of our pin-up beauty magically appears on the shaft. It will blow your friends away out on the course or in the office. Not only is it hilarious, it putts great!!! See an animation at www.noveltyputters.com
